Reloading User Cycle Archives

1. Press **Menu Select** hardkey

2. Press **Services** horizontal softkey

3. Press **Data In** horizontal softkey

4. Using the arrow keys, move down to User-cycles (the target directory for the files being loaded)

5. Press **Enter**

6. Press **Archive** vertical softkey

7. Using the arrow keys, move down to the correct user cycle archive. It should be named USERCY##### with the last characters being the date. Use the newest file available

8. Press **Start** vertical softkey

9. Press **Yes All** on the vertical softkey to overwrite all files

10. Press **Delete Log** vertical softkey once complete

End of Procedure
